

# REFRACTIVITY GRADIENTS IN THE NORTHERN HEMISPHERE

C. A. SAMSON

Prepared for  
The Deputy Chief of Staff  
for Plans and Operations  
U.S. Army Communications Command  
Ft. Huachuca, Az. 85613

U.S. DEPARTMENT OF COMMERCE  
Frederick B. Dent, Secretary

Betsy Ancker-Johnson, Ph. D.  
Assistant Secretary for Science and Technology

OFFICE OF TELECOMMUNICATIONS  
John M. Richardson, Acting Director

APRIL 1975

For sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402

**UNITED STATES DEPARTMENT OF COMMERCE**  
**OFFICE OF TELECOMMUNICATIONS**  
**STATEMENT OF MISSION**

The mission of the Office of Telecommunications in the Department of Commerce is to assist the Department in fostering, serving, and promoting the nation's economic development and technological advancement by improving man's comprehension of telecommunication science and by assuring effective use and growth of the nation's telecommunication resources.

In carrying out this mission, the Office

- Conducts research needed in the evaluation and development of policy as required by the Department of Commerce
- Assists other government agencies in the use of telecommunications
- Conducts research, engineering, and analysis in the general field of telecommunication science to meet government needs
- Acquires, analyzes, synthesizes, and disseminates information for the efficient use of the nation's telecommunication resources.
- Performs analysis, engineering, and related administrative functions responsive to the needs of the Director of the Office of Telecommunications Policy, Executive Office of the President, in the performance of his responsibilities for the management of the radio spectrum
- Conducts research needed in the evaluation and development of telecommunication policy as required by the Office of Telecommunications Policy, pursuant to Executive Order 11556

## TABLE OF CONTENTS

	Page
ABSTRACT	1
1. INTRODUCTION	1
2. SOURCE OF DATA	2
3. DATA PRESENTATION	4
4. DISCUSSION	8
5. CONCLUSIONS	13
6. ACKNOWLEDGMENT	13
7. REFERENCES	15
APPENDIX A: Calculation of Refractivity	17
APPENDIX B: The Normal Refractivity Gradient	20
APPENDIX C: Cumulative Distributions of the Observed Radio Refractivity Gradient in the Ground-based 100-meter Layer	23
STATION INDEX	24
APPENDIX D: Errata and Supplementary Remarks for "A World Atlas of Atmospheric Radio Refractivity"	118

## FIGURES

Figure 1. Location of stations for which refractivity gradient data are given in Appendix C	3
Figure 2. Domestic radiosonde network of the U.S. National Weather Service	5
Figure 3. Relationship between sunrise/sunset times and the standard RAOB release time at Fort Smith, N.W.T.	10
Figure 4. Minimum effective value of "k" as a function of path length	12
Figure A-1. Refractive index nomogram	19
Figure B-1. Annual median 100-m refractivity gradient	21
Figure B-2. February and August median values of 100-m refractivity gradient	22
